EDUCATION

Maharshi Dayanand University
B.Tech in Computer Science, 7.7 CGPA

India
Aug. 2021 – May 2025

EXPERIENCE

Full-Stack Engineer

Intodia

Jan. 2026 – Mar. 2026

- Developed the full-stack MVP independently, handling frontend, backend, and deployment.
- Collaborated closely with the founder on product direction and feature prioritisation.
- Delivered a production-ready platform from scratch with zero existing codebase.

Full-Stack Developer

Hello Atithi India

Feb. 2025 – Dec. 2025

- Contributed to core development of a production-level Next.js hospitality platform.
- Led major UI/UX improvements in collaboration with design, supporting a full platform redesign.
- Enhanced admin modules and internal workflows; optimised Vercel deployments for performance.

Frontend Developer Intern

CodexIntern

Jan. 2025

- Built responsive UI components using React.js and Tailwind CSS for production use.
- Integrated third-party APIs to deliver dynamic, data-driven user-facing features.

PROJECTS

RugMania | Next.js, Wagmi, Privy, Mantle | Live

- Built a provably fair on-chain survival game on Mantle using a Commit-Reveal cryptographic scheme, mathematically guaranteeing tamper-proof outcomes.
- Integrated Privy for frictionless Web3 login; deployed full game logic to Mantle Sepolia testnet during hackathon.

KryptoScreener | React.js, Solana Web3.js, Tailwind CSS | Live

- Built a real-time crypto market dashboard with live price feeds, personalised watchlists, and market insights optimised for low-latency UI updates.
- Implemented a prediction game and integrated Web3 wallet connectivity using Solana Web3.js.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Tailwind CSS, Privy, Solana Web3.js

Backend & Databases: Node.js, MongoDB, Supabase, Prisma

Tools: Git, Postman, Vercel, Google Cloud, Cursor, Bolt, v0

HIGHLIGHTS

Monad Blitz Delhi Hackathon – 2nd Place

ETHGlobal Delhi & 8+ Hackathons Participated

CoinSwitch CreatorLab Fellow – Cohort 1
